>_AIDVENTURE

Live unlimited and infinite adventures

Game overview

Genre : Text Based Interactive Fiction/RPG Adventure

Platform : PC

Engine : Godot Engine

Game Length : Infinite

Released : 25/12/2021

The initial offer

« Protect Europe from the overpopulation by enforcing the tough Law on life, a life for a birth. Or flip the table and fight the cruel plutocracy to free humanity.
Survive the zombie apocalypse, but will your humanity survive in the process?
Inherit a corrupt kingdom and survive the court's intrigues.
Survive the harsh Dark Ages in the skin of a peasant, witch or squire.
Wake up within a tube in a post-apocalyptic world. Plunder on the seven seas or just help your neighbour's wife with her plumbing problems.
The choice is yours*. »*

Features

Customisable : Don't like the AI? Don't like the settings? Change them!

Memory system : The AI has both a short and long term memory.

Easy to use interactions : Choose the mode of interaction with the AI between Say/Try/Do/Story.
